WORKBOOK GUIDE

Build something useful as you learn.

This workbook turns the course into a practical piece of work you can review, refine and adapt. Print it, annotate it digitally, or use the prompts in your preferred notes tool.

YOUR COURSE DELIVERABLE

A complete independent-practice operating playbook.

How to use this workbook

01 Work through the course lessons in order, then complete the matching workbook prompts.

02 Use fictional or properly authorised information. Do not add candidate or client confidential data.

03 Compare your decisions with the self-review guidance. Revise assumptions, gaps and unclear ownership.

04 Keep the finished workbook as evidence of your learning and as a starting point for real work.

BEFORE YOU START

Complete the commercial pathway or bring equivalent experience running recruitment work.

PART 1

Plan your course deliverable.

Use these planning pages to define what you are producing before you work through the lesson exercises. Return to them as your thinking develops.

WORKSHEET 01

Weekly capacity and work-in-progress limits

Capture the evidence, decisions, assumptions, owners and next actions that make this section usable.

PART 2

Apply each lesson.

Each exercise is designed to turn the lesson into evidence of practice. Complete the task, then use the guidance to challenge your first answer.

LESSON 01 / 04

Design a week around capacity and commitments

YOUR PRACTICE TASK

Build a forty-hour fictional week and stress-test it with a five-hour unplanned issue.

YOUR RESPONSE

FICTIONAL WORKED EXAMPLE

A solo recruiter has two intensive searches and several discovery calls. The plan reserves delivery blocks and declines a third urgent start until capacity or scope can be adjusted.

SELF-REVIEW GUIDANCE

Show which tasks move, which commitments remain protected and who is informed. Do not solve the exercise by assuming unlimited unpaid overtime.

LESSON 02 / 04

Connect commercial and delivery records

YOUR PRACTICE TASK

Design a weekly dashboard with six sections and explicit next-action fields.

YOUR RESPONSE

FICTIONAL WORKED EXAMPLE

A search is commercially agreed but waiting on a client brief. The operating view shows the dependency and next decision, rather than treating the engagement as fully active sourcing work or as cash already received.

SELF-REVIEW GUIDANCE

Include sales, delivery, candidate commitments, finance, risks and improvement. Avoid copying every detail into the dashboard; link to the source record and surface the decision needed.

LESSON 03 / 04

Run financial, quality and risk checks

YOUR PRACTICE TASK

Create a weekly control checklist and a monthly downside review.

YOUR RESPONSE

FICTIONAL WORKED EXAMPLE

Revenue appears strong, but two invoices are overdue and three searches require more work than planned. The owner reviews cash and capacity before buying another tool or accepting a new commitment.

SELF-REVIEW GUIDANCE

Include cash timing, work in progress, critical defects, access and continuity. Each check should have an action threshold and a record of follow-through.

LESSON 04 / 04

Improve the operating system deliberately

YOUR PRACTICE TASK

Assemble your pathway outputs into a playbook and choose a thirty-day improvement experiment.

YOUR RESPONSE

FICTIONAL WORKED EXAMPLE

A recruiter repeatedly rewrites client updates. The improvement creates an evidence-and-decisions template and tests whether it reduces preparation time while improving client clarity, before considering automated generation.

SELF-REVIEW GUIDANCE

The playbook should contain market thesis, qualification, delivery, communication, finance and risk routines with owners or adviser contacts. State unresolved readiness gaps honestly. Completion is a self-directed operating plan, not a guarantee of business success.

FINAL REVIEW

Strengthen the work before you use it.

Review the completed workbook as one connected piece of work. The strongest deliverables are internally consistent, explicit about limitations and clear about who decides what happens next.

- ☐ The work distinguishes facts, evidence, assumptions and open questions.
- ☐ Decisions have named owners, dates and review points.
- ☐ Measures connect to the outcome rather than activity alone.
- ☐ Risks, accessibility needs, privacy considerations and limitations are visible.
- ☐ The next action is specific enough for another person to follow.
- ☐ The finished deliverable can be explained in plain language.
